

Redefining business with the latest technology onboarding for a leading LED manufacturer

Overview

The client is a market-leading innovator of lighting-class LEDs, LED lighting, and semiconductor solutions for wireless and power applications.

Organization Size: **6000**

Country: **USA**

Revenue: **\$1 Billion**

Challenges and Goals

The client had disparate systems and tools leading to reduced productivity and efficiency of business functions. A unified digital view with business process automation and vendor consolidation were required to further its inorganic growth model and aid process efficiencies.

Solutions

Our experts became the preferred BUILD & RUN partner with a multi-service engagement model to meet the vendor consolidation objective. We provided a core team for project support and maintenance, and a flex team for transformational capex projects. Our efforts focused on:

- Support, Upgrades, Implementation projects, Workday implementation and Support with Oracle E-Biz
- A range of Business Process Automation services - Vendor Creation, AP Invoice entry & Reconciliations, Apss DBA 24x7 support, Digital – Salesforce Admin & Development, FED using Dot Net, React JS on Azure
- Analytics Services - Tableau , OBIEE, Discoverer, ETL
- Infra services - EUT, DCO, IDM, Security
- BPM services – Vendor Creation, AP Invoice entry & Reconciliations, Apss DBA 24x7 support, Digital – Salesforce Admin & Development, FED using Dot Net, React JS on Azure
- M&A , Divestiture - Application Carve out, Roll out services across the service lines in all major Acquisitions, divestiture and restructuring projects.
- Advisory services with workshops through Zensar COE

Business Impact

Cost reduction in IT support and professional services

- Provided effective L2/L3 support and released critical client SME bandwidth for key project initiatives
- Achieved capability building with right skill resources
- Achieved fast deployment and adoption of NexGen IT applications, and products and business critical deadlines
