Strategic report
For the year ended 31 March 2018

The directors present their strategic report on the company for the year ended 31 March 2018.

Business review

The results for the period and the financial position at the period-end were considered satisfactory for the directors who are confident of continued growth for the foreseeable future.

Post Zensar acquisition, the company has won projects with a Zensar group client which will help further grow the business.

Further information on results are provided in Financial key performance indicators section below.

Principal risks and uncertainties

The management of the business and the execution of the company's strategy are subjected to a number of business risks. The company ensures a continuous risk identification and management process, they evaluate the risks and select appropriate risk management strategies.

The principal risks to which the company is exposed are listed below:

<u>Risk of over reliance on key clients</u>
Excessive exposure to a few clients could impact the company's revenues and profitability in case of loss of these clients or a significant downsizing of projects given to the company by these clients.

Risk mitigation
The company has been engaged in long-term relationships with its major customers thus mitigating the risk of inconsistent revenues. The company also, on a periodical basis, regularly updates its clients' credit risk assessments.

<u>Risk of over reliance on key industry sectors</u>
The company may be excessively dependent on certain industry sectors. A downturn in the fortunes of clients or a reduction in their IT spending / budgets, would adversely affect the company's own profitability.

Risk mitigation
The company has prudently selected the industry sectors on the basis of their rapid growth and the critical dependence of these sectors on IT solutions to increase their respective business efficiency. The directors consider that the company has sufficiently distributed its business across industry sectors to mitigate any risk of such exposure.

<u>Risk of salary price inflation and competition from third party global agencies</u>
With salary price inflation and growing third party competitors around the world, the company's profitability is at risk of being adversely impacted. The main risk is due to the increases in expenses without the ability to increase revenue at the same rate.

Risk mitigation
The company prides itself on the years of experience of working alongside major global brands, alongside employing the largest talent pool of experience designers of any independent experience design agency in Europe. The directors believe that these years of experience and highly talented workforce will set them apart from the third party agencies and will mitigate the risk of being unable to increase the prices inline with salary inflation.

Strategic report (continued)
For the year ended 31 March 2018

Financial key performance indicators

The operation of the company are closely monitored and performance of the company is measured against two KPIs:

1) Revenue and;
2) Earnings before interest and tax, depreciation and amortisation ("EBITDA").

Revenue for the 15 month period ending 31st March was £651,440 (prorated to £521,152 over a 12 month period) and Earnings before Interest ,Tax, Depreciation and Amortization (EBITDA) was (£483,747) (prorated to (£386,998) over a 12 month period) , as against revenue of £846,259 and EBITDA of (£176,539) in the year ending 31 December 2015. Revenue declined marginally during the period due to completion of projects. Loss before interest, tax, depreciation and amortisation increased during the period as the company increased capacity to grow the business, which led to higher administrative expenses compared to previous year.

The operations of the company are managed as part of the wider Zensar group and therefore the directors believe analysis using additional KPI's is not necessary for the understanding of the development, performance or position of the company. KPI disclosures for the group, including Knit Limited, is included within the directors' report of Zensar Technologies Limited's annual report which does not form part of this report but is publicly available as set out in Note 18.

This report was approved by the board on and signed on its behalf.

C Rajebahadur
Director

Directors' report
For the year ended 31 March 2018

The directors present their report and the audited financial statements for the year ended 31 March 2018.

Principal activity

The principle activities of the company during the period were that of a creative technology agency, with a team of innovators who design and create compelling digital experiences.

Results and dividends

The loss for the year, after taxation, amounted to £95,596 (2017 - loss £491,205).

The statement of total comprehensive income for the period is set out on page 9.

The company has shown revenue of £651,440 during the period as compared to £967,163 during the previous year.

The directors are unable to recommend the payment of a dividend (2015 - £nil)

Directors

The directors who served during the year were:

S Kishore
C Rajebahadur
S Jambhale

Directors' report (continued)
For the year ended 31 March 2018

Financial risk management objectives

The company's operations expose it to a variety of financial risks that include the effects of changes in credit risk and interest rate cash-flow risk. The company has in place a risk management programme that seeks to limit adverse effects on the financial performance of the company. Given the size of the company, the directors have not delegated the responsibility of monitoring financial risk management to a sub-committee of the board. The policies set by the board of directors are implemented by the company's finance department. The company does not use derivative financial instruments and as such no hedge accounting is applied.

Credit risk
The current economic climate is increasing the credit risk of the company. The company adopts policies that require appropriate credit checks on potential customers before sales are agreed.

Interest rate cash-flow risk
The company has interest bearing assets which attract interest variable rates on funds held in banks as short term deposits. The situation is reviewed by the finance department on a yearly basis to ascertain the cash flow impact of existing interest rates on the deposit balances.

Liquidity risk
The company currently has no requirements for debt finance but maintains sufficient funds for operations.

Interest rate risk
The company has interest bearing assets in the form of cash balances. Amounts payable to group undertakings are unsecured, interest free and have no date of repayment. Amounts receivable from group undertakings are unsecured, interest free and have no date of repayment. The directors will revisit the appropriateness of this policy should the company's operations change in size or nature.

Price risk
The company has no exposure to equity securities price risk as it holds no listed or other equity investments.

Foreign exchange risk
Most of the company's revenue and expenses are generated in GBP and therefore there is no major foreign currency risk. Transactions in foreign exchange are recorded on the daily exchange rate. The directors will revisit the appropriateness of this policy should the company's operations change size or nature.

Future developments

The directors anticipate the business environment will remain competitive. Following the parent of Knit Limited having been acquired by Zensar Technologies (UK) Limited in the period, the company are confident in continued growth, through strengthening customer relationships and developing new links throughout the world.

Research and development activities

The company carries out research and development activities in order to create innovative and customised solutions to advance technology.

Directors' report (continued)
For the year ended 31 March 2018

Directors' responsibilities statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial 15 month period. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland”, and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' report (continued)
For the year ended 31 March 2018

Disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware, and

- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Post balance sheet events

There have been no significant post balance sheet events that are considered to impact the reported results to 31 March 2017.

Independent auditors

The auditors, PricewaterhouseCoopers LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006.

This report was approved by the board on and signed on its behalf.

Notes to the financial statements
For the year ended 31 March 2018

1. General information

Knit Limited is a creative technology agency, with a team of innovators who design and create digital experiences.

Knit Limited is a private company limited by shares incorporated in England.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest pound.

The period of the financial statements has been extended to cover the period from 1 January 2016 to the 31 March 2017. This is to align the year end with the companys ultimate controlling party.

2. Accounting policies

2.1 Statement of compliance

The financial statements of UK GAAP Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

2.2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the years presented, unless otherwise stated. The company has adopted FRS 102 in these financial statements.

2.3 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

Notes to the financial statements
For the year ended 31 March 2018

2. Accounting policies (continued)

2.4 Financial reporting standard 102 - reduced disclosure exemptions

The company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland":

- the company has taken advantage of the exemption, under FRS 102 1.12(b), from preparing a statement of cash flows, on the basis that it is a qualifying entity and its ultimate parent company, Zensar Technologies Limited, includes the Company's cash flows in its consolidated financial statements;

- certain financial instrument disclosures providing equivalent disclosures are included in the consolidated financial statements of the group in which the entity is consolidated [FRS 102 paras 11.39 - 11.48A, 12.26 - 12.29];

- key management personnel compensation in total [FRS 102 para 33.7].

This information is included in the consolidated financial statements of Zensar Technologies Limited as at 31 March 2017, and these financial statements may be obtained from the company at Zensar Knowledge Park, Kharadi, Plot No. 4, MIDC, Off Nagar Road, Pune 411014, India.

2.5 Going concern

The company is able meets its day to day working capital requirements. The directors anticipate the business environment will remain competitive however continued future growth and customer contract wins will service the ongoing cash flow requirements enabling the Company to settle its debts as they fall due.

At the balance sheet date the company had net current liabilities of £723,743 (2017: liabilities £628,143). The intermediate parent company, Zensar Technologies (UK) Limited has confirmed that it will continue to provide financial support as necessary to enable the company to meet its financial obligations as they fall due for a period of at least 12 months from the date of signing of the financial statements. For this reason the directors consider it appropriate that the financial statements are prepared on the going concern basis.

2. Accounting policies (continued)

2.6 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Rendering of services

Revenue from professional services consist of revenues earned from services performed on a "time and material" basis and related revenue is recognised as the services are performed. The company performs time bound fixed-price engagements, under which revenue is recognised using the proportionate completion method of accounting. The cumulative impact of any revision in estimates of the stage of completion is reflected in the year in which the change becomes known. The company recognises revenue when the following conditions are satisfied:

- the amount of revenue can be measured reliably;

- it is probable that the company will receive the consideration due under the contract;

- the stage of completion of the contract at the end of the reporting period can be measured reliably using accurate time records; and

- the costs incurred and the costs to complete the contract can be measured reliably.

2.7 Tangible assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, either by straight line method or by reducing balance..

Depreciation is provided on the following basis:

Office equipment	- 4 years
Computer equipment	- 3 years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the Statement of comprehensive income.

2.8 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2. Accounting policies (continued)

2.9 Impairment of non-financial assets

At each balance sheet date non-financial assets not carried at fair value are assessed to determine whether there is an indication that the asset (or asset's cash generating unit) may be impaired. If there is such an indication the recoverable amount of the asset (or asset's cash generating unit) is compared to the carrying amount of the asset (or asset's cash generating unit).

The recoverable amount of the asset (or asset's cash generating unit) is the higher of the fair value less costs to sell and value in use. Value in use is defined as the present value of the future cash flows before interest and tax obtainable as a result of the asset's (or asset's cash generating unit) continued use. These cash flows are discounted using a pre-tax discount rate that represents the current market risk-free rate and the risks inherent in the asset.

If the recoverable amount of the asset (or asset's cash generating unit) is estimated to be lower than the carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised in the profit and loss account, unless the asset has been revalued when the amount is recognised in other comprehensive income to the extent of any previously recognised revaluation. Thereafter any excess is recognised in profit or loss.

If an impairment loss is subsequently reversed, the carrying amount of the asset (or asset's cash generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the revised carrying amount does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior periods. A reversal of an impairment loss is recognised in the profit and loss account.

2. Accounting policies (continued)

Financial instruments

The company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

i.*Financial assets*

Basic financial assets, including trade and other debtors and cash at bank, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is decrease in the impairment loss arising from an even occurring aft the impairment was recognised the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

ii.Financial liabilities

Basic financial liabilities, including trade and other payables, bank loans and loans from fellow group companies, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method. Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

iii. Offsetting

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

2. Accounting policies (continued)

2.10 Creditors

Creditors due within one year are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.11 Foreign currency translation

Functional and presentation currency

The company's functional and presentational currency is pound sterling.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of Comprehensive Income within 'finance income or costs'. All other foreign exchange gains and losses are presented in the Statement of Comprehensive Income within 'other operating income'.

2.12 Operating leases: the company as lessee

Leases that do not transfer all the risks and rewards of ownership are classified as operating leases. Payments under operating leases are charged to the profit and loss account on a straight-line basis over the period of the lease.

2.13 Employee benefits

Defined contribution pension plan

The company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payment obligations.

The contributions are recognised as an expense in the Statement of comprehensive income when they fall due. Amounts not paid are shown in accruals as a liability in the Balance sheet. The assets of the plan are held separately from the company in independently administered funds.

Short term benefits

Short term benefits, including holiday pay and other similar non-monetary benefits, are recognised as an expense in the period in which the service is received.

2. Accounting policies (continued)

Annual bonus plan

The company operates an annual bonus plan for employees. An expense is recognised in the profit and loss account when the company has a legal or constructive obligation to make payments under the plan as a result of past events, and a reliable estimate of the obligation can be made.

2.14 Provisions for liabilities

Provisions are made where an event has taken place that gives the company a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the Statement of comprehensive income in the year that the company becomes aware of the obligation, and are measured at the best estimate at the Balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance sheet.

2.15 Current and deferred taxation

Taxation expense for the period comprises current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity respectively.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements.

Deferred tax is recognised on all timing differences at the reporting date except for certain exceptions. Unrelieved tax losses and other deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

2.16 Related party transactions

The company discloses transactions with related parties which are not wholly owned with the same group. It does not disclose transactions with its’ parent or with members of the same group that are wholly owned.

Notes to the financial statements
For the year ended 31 March 2018

3. Turnover

Analysis of turnover by country of destination:

	31 March 2018 £	15 months ended 31 March 2017 £
United Kingdom	651,440	823,063
Rest of Europe	-	116,400
Rest of the world	-	27,700
	651,440	967,163

The directors consider that all turnover arises from the entity's principal activity.

4. Operating profit/(loss)

The operating profit/(loss) is stated after charging:

	31 March 2018 £	15 months ended 31 March 2017 £
Depreciation of tangible fixed assets	2,912	7,988
Fees payable to the company's auditor and its associates for the audit of the company's annual financial statements	15,000	12,000
Operating lease charges	-	45,000

Notes to the financial statements
For the year ended 31 March 2018

5. Employees and Directors

Staff costs, including directors' remuneration, were as follows:

	31 March 2018 £	15 months ended 31 March 2017 £
Wages and salaries	451,776	721,286
Social security costs	42,673	85,646
Other pension costs	11,336	24,483
	505,786	831,415

The average monthly number of employees, including the directors, during the year was as follows:

	31 March 2018 No.	15 months ended 31 March 2017 No.
Production	8	12

6. Directors

The directors' emoluments were as follows:

	31 March 2018 £	15 months ended 31 March 2017 £
Directors' emoluments	-	93,877
	-	93,877

During the period no retirement benefits were accruing to any directors (2017 - Nil) in respect of defined contribution pension schemes.

Current Directors of the company are employees of other group undertakings. No remuneration is paid of payable to current Directors in their capacity as director of the company (2017- Nil). The Directors received remuneration from fellow group undertaking, in respect of their services to the group of which the company is a member. It is not possible to identify the proportion of remuneration that relates to services of this company.

7. Income tax

(a) Tax expense included in profit or loss

	31 March 2018 £	15 months ended 31 March 2017 £
Total current tax	22	-
Deferred tax		
Origination and reversal of timing differences	1,680	(531)
Taxation on profit/(loss) on ordinary activities	1,702	(531)

Notes to the financial statements
For the year ended 31 March 2018

(b) Reconciliation of tax charge

The tax assessed for the year/period is lower than (2017 - lower than) the standard rate of corporation tax in the UK of 19% (2017 - 20%). The differences are explained below:

	31 March 2018 £	15 months ended 31 March 2017 £
Profit/(loss) on ordinary activities before tax	(97,298)	(491,736)
Profit/(loss) on ordinary activities multiplied by standard rate of corporation tax in the UK of 19% (2017 - 20%)	(18,487)	(98,347)
Effects of:		
Expenses not deductible for tax purposes	2,154	7
Adjustment in respect of previous periods	(1,067)	
Unrelieved tax losses arising in the period	-	97,866
Loss surrender to Foolproof	15,720	
Changes in tax rates on asset timing differences	-	(57)
Total tax charge for the year/period	(1,680)	(531)

Notes to the financial statements
For the year ended 31 March 2018

7. Income tax (continued)

(c) Tax rate changes

At 31 March 2017, the company had tax losses of £402,368 (2017: £566,209) available for future offset against future taxable profits. A deferred tax asset in respect of these losses amounting to £76,450 (2017: 107,580) has not been recognised in the financial statements due to uncertainty over their future recoverability.

Changes to the UK corporation tax rates were substantively enacted as part of Finance Bill 2015 (on 26 October 2015) and Finance Bill 2016 (on 7 September 2016). These included reductions to the main rate to reduce the rate to 19% from 1 April 2017 and to 17% from 1 April 2020. Deferred taxes at the balance sheet date have been measured using these enacted tax rates and reflected in these financial statements.

8 Tangible assets

	Office equipment	Computer equipment	Total
	£	£	£
Cost or valuation			
At 1 April 2017	3,683	33,789	37,471
Additions			
At 31 March 2018	3,683	33,789	37,471
Depreciation			
At 1 April 2017	2,642	29,164	31,806
Charge for period	1,041	1,872	2,912
At 31 March 2018	3,683	31,035	34,718
Net book value			
At 31 March 2018	0	2,753	2,753
At 31 March 2017	1,041	4,625	5,666
